

**THE ANODE COMPANY**

**ALUMINUM • ZINC • MAGNESIUM ANODES**

*Over 40 years of Excellence*

**Galvotec has been your manufacturer since 1984**

AC Mitigation

Any Metallic (usually steel)

Ballast Tanks

Barges

Boats

Boilers

Bulkheads

Buried Structures

Condensers

Docks

Gates for Dams

Grounding Cells

Heat Exchangers

Fishing Nets/Traps

Floating Production Vessels

Gas Service Entrance Piping

Chemical Storage & Process Containers

Structures in Contact with Soil or Water

Heater Treaters

Hulls

Locks

Offshore Structures

Onshore Structures

Piers

Pilings

Pipelines

Platforms

Ships

Solar Panels Farms

Submarines

Subsea Equipment

Tank Bottoms

Tanks

Travel Screens

Tugs

Water Heaters

Water Separation Vessels

Water Storage Tanks

Wind Turbines

**protecting structures all over the world  
from corrosion**

ISO/IEC 1705  
Accredited Laboratory

Management System

Over 40 years of Excellence

If you want peace of mind for 20, 30 or 50 years ...specify galvotec anodes!

Producing Sacrificial Anodes since 1984 Galvotec has proven experience and integrity. Because of our longevity and reliability, along with our talented group of professionals, Galvotec is universally recognized as one of the leading anode manufacturers in the world. Our extreme dedication to quality and continuous improvement has elevated us to our superior position in the industry.

Our technical capabilities are unmatched. With production facilities specially designed for the efficient manufacturing of sacrificial anodes and our analytical and quality departments, we can assure full compliance with any industry standard or specification, on time, every time.

Industry specifications that Galvotec Anodes conform to include ASTM, DNV, ISO, NACE/AMPP, Military Specifications, Shell Specifications, and other industry requirements specified by customers.

Our customers are our best references. We have satisfied and repetitive customers worldwide in the marine, oil and gas, military, and industrial sectors. Our reputation is a direct reflection of the high standard of quality that our products are manufactured to.

**ALUMINUM Anodes:**

Galvotec III, Galvotec CWIII, Mil-A-24779

[www.galvotec.com](http://www.galvotec.com)

**ZINC Anodes:**

ASTM B 418 Types I and II, Mil-A-18001. Specify these alloys for soil and marine applications

**MAGNESIUM Anodes:**

ASTM B 843 Types M1C/SuperMAG™, H1A, H1B, H1C, Mil-A-21412A  
Specify these alloys for soil\*, marine, condenser, and fresh water applications

**MAGNESIUM RIBBON Anodes:**

ASTM B 843 M1C/SuperLINE™ for soil applications

**EXTRUDE MAGNESIUM Anodes:**

ASTM B 107 AZ31D/SuperROD™ Specify SuperROD™ for magnesium water heater applications\*

*\*NSF/ANSI Certified to Std.-61 Potable water use*

- Established and privately owned since 1984 ISO 9001 Certified by DNV
- Gold Medal approved supplier to the U.S. Department of Defense - NAVSEA QPL-24779
- Approved supplier to Shell Qualified as per Shell DEP 37.81.21.31-EPP

- Compliant to DNV RP-B-401
- NSF/ANSI Certified Magnesium for use in potable water systems as per STD-61
- Analytical laboratories that surpasses any other anode manufacturer for chemical and electrochemical testing and R&D of sacrificial anodes
- Experienced, dedicated staff of engineers, technologists, technicians, foundry men and women, and superior sales team that provide the highest quality products and the ultimate in customer support in the industry.
